As a botanist, Robin Wall Kimmerer has been trained to ask questions of nature with the tools of science. As a member of the Citizen Potawatomi Nation, she embraces the notion that plants and animals are our oldest teachers. In Braiding Sweetgrass, Kimmerer brings these two lenses of knowledge together to take us on " a journey that is every bit as mythic as it is scientific, as sacred as it is historical, as clever as it is wise " (Elizabeth Gilbert). Drawing on her life as an indigenous scientist, and as a woman, Kimmerer shows how other living beings—asters and goldenrod, strawberries and squash, salamanders, algae, and sweetgrass—offer us gifts and lessons, even if we've forgotten how to hear their voices. In reflections that range from the creation of Turtle Island to the forces that threaten its flourishing today, she circles toward a central argument: that the awakening of ecological consciousness requires the acknowledgment and celebration of our reciprocal relationship with the rest of the living world. For only when we can hear the languages of other beings will we be capable of understanding the generosity of the earth, and learn to give our own gifts in return.

"This workbook will introduce your child to grade six vocabulary and reading comprehension exercises in a step-by-step manner."--Cover.

"This book offers a unique interpretation of traditional workshop instruction by showing teachers how to integrate their separate reading and writing workshops into one 'literacy workshop' (periodically and as dictated by student needs) that takes advantage of the inherent reciprocity between reading and writing. Through narrative discussion, student samples, photographs, instructional resources, online content, suggested lessons and various mentor texts, the book explains the structure of the literacy workshop, tells readers how to get started with it, and shows them how to decide when it's best to merge the two workshops into one. The book is divided into two parts. Part I (Chapters 1-4) lays the foundation and gives the nuts and bolts of literacy workshop. Part II (Chapters 5-9) includes engagement/strategy/topic focused demonstration lessons - which includes a primary and an intermediate level example lesson for each Big Idea"--

A savvy and validating guide to what might be in store for growing numbers of childfree and childless adults worldwide, Do You Have Kids? Life When the Answer is No takes on topics from the shifting meaning of family to what we leave behind when we die. Weaving together wisdom from women ages twenty-four to ninety-one with both her own story and a growing body of research, Kate brings to light alternate routes to lives of meaning, connection, and joy. Today about one in five American women will never have children, whether by choice or by destiny. Yet few women talk much about what not having kids means to their lives and identities. Not that they don ' t want to; there just aren ' t obvious catalysts for such open conversations. In fact, social taboos preclude exploration of the topic—and since our family-centric culture doesn ' t know quite what to do with non-parents, there ' s potential for childless and childfree women to be sidelined, ignored, or drowned out. Yet there ' s widespread, pent-up demand for understanding and validating this perfectly normal way of being. In this straight-shooting, exhaustively researched book, women without kids talk candidly about the ways in which their lives differ from societal norms and expectations—the good, the bad, and the unexpected.
