The Declaration of the Rights of Man and of the Citizen, set by France's National Constituent Assembly in 1789, is a human civil rights document from the French Revolution. The Declaration was drafted by the Abbé Sieyès and the Marquis de Lafayette, in consultation with Thomas Jefferson. Influenced by the doctrine of "natural right", the rights of man are held to be universal: valid at all times and in every place. It became the basis for a nation of free individuals protected equally by ...

A sweeping tale of revolution and wonder in a world not quite like our own, *A Declaration of the Rights of Magicians* is a genre-defying story of magic, war, and the struggle for freedom in the early modern world. It is the Age of Enlightenment -- of new and magical political movements, from the necromancer Robespierre calling for a revolution in France, to the weather mage Toussaint L'Ouverture leading the slaves of Haiti in their fight for freedom, to the bold new Prime Minister William Pitt weighing the legalization of magic amongst commoners in Britain and abolition throughout its colonies overseas. But amidst all of the upheaval of the early modern world, there is an unknown force inciting all of human civilization into violent conflict. And it will require the combined efforts of revolutionaries, magicians, and abolitionists to unmask this hidden enemy before the whole world falls to darkness and

point of 19th-century political theory, should not be thought of as arising from a purely French tradition (namely the tradition stemming from Jean-Jacques Rousseau) but as a close analogue of revolutionary movements and ideas in England and the United States.

This is the first book to address and review the United Nations' Declaration on the Rights of Peasants and Other People Working in Rural Areas (UNDROP), which was adopted by the United Nations General Assembly in December 2018. Food security and sustainable agri-food systems, responsible governance of natural resources, and human rights are among the key themes of the new millennium. The Declaration is the first internationally negotiated instrument bridging these issues, calling for a radical paradigm

change in the agricultural sector while giving voice to peasants and rural workers, recognised as the drivers of more equitable and resilient food systems. The book unfolds the impact of the Declaration in the wider realm of law and policy making, especially concerning the new human rights standards related to access and control of natural resources and the governance of food systems. The chapters in the book touch on a broad array of topics, including women's rights, the role of and impact on indigenous peoples, food sovereignty, climate change, land tenure, and agrobiodiversity. Voices from outstanding scholars and practitioners are gathered together to inform and trigger a further debate on the negotiation process, the innovative and potentially disruptive contents, the relations with other fields of law, and the practical scope of the Declaration. The volume concludes with a collection of case studies

Declaration of Independence and the individual states' various declarations and bills of rights preceded the French Declaration. But the French deputies of the National Assembly tried hard, in the words of one of their number, not to receive lessons from others but rather "to give them" to the rest of the world, to proclaim not the rights of Frenchmen, but those "for all times and nations." The chapters in this book treat mainly the origins of the Declaration in the political thought and practice of the preceding three centuries that Tocqueville designated the "Old Regime." Among the topics covered are privileged corporations; the events of the three months preceding the Declaration; blacks, Jews, and women; the Assembly's debates on the Declaration; the influence of sixteenth-century notions of sovereignty and the separation of powers; the rights of the accused in legal practices and political trials from 1716

tolerance. Each text resonates powerfully with the issues our world faces today. Tolerance was first published by the Société française d'étude du dix-huitième siècle (the French Society for Eighteenth-Century Studies) in the wake of the Charlie Hebdo assassinations in January 2015 as an act of solidarity and as a response to the surge of interest in Enlightenment values. With the support of the British Society for Eighteenth-Century Studies, it has now been translated by over 100 students and tutors of French at Oxford University.
