~~bionet.biotechwithoutborders.org~~

The content of all ABR exams is determined by a panel of experts who select the items based on a content guide that the ABR publishes. The content guides are assembled using guidance from medical physics organizations. The content guides are general documents, and individual exam items may not appear to be exactly congruent with the content listed in the guide. In addition, since there is only a limited number of items on any exam, selected items will only be a sample from the larger domain ...

preparation for the Core Examination in diagnostic radiology. The Core Examination is designed to evaluate a candidate's core radiology knowledge and clinical judgement, across both the subspecialties and imaging modalities of diagnostic radiology.

~~Diagnostic Radiology — ABR~~

The ABR Diagnostic Radiology Core Exam Blueprints are published and maintained by the ABR and are used here with permission. To access the original blueprints and get more information about the exam, visit the ABR website. We've updated the index with articles from the October 2020 issue of RadioGraphics. Section entries with new material are marked with the logo.

~~RadioGraphics ABR Diagnostic Radiology Core Exam ...~~

Core Exam Study Resources ABR exams are developed by volunteers from a wide range of practice settings and reflect the breadth of information a candidate is expected to know by the time of an exam. While we offer study guides on our website, each candidate should decide what type of resources he or she should use for our exams.

ABR

Study guides for these categories may be found here. In addition, a portion of the Radioisotope Safety Exam (RISE), one of the requirements for Authorized User (AU)

eligibility status, is included within the Core Exam. Physics questions are integrated into each category, so no separate physics exam will be administered.

ABR

The general exam section focuses on medical physics at the level of common graduate courses. The clinical exam section focuses on anatomy, medical terminology, and physiology at the level of an introductory course taught in a college of health sciences, as well as radiobiology at the level of an introductory graduate course.
