If You Are Serious About Making Money Online – You Need to Read This Book! Hands Down, eBay and Fiverr are the two best websites where every day people can make money selling products or services online. If you have ever wanted to carve out your own niche, this four book bundle is going to give you all of the information that you need to get started. If you want to sell products on eBay you ' re going to learn the secrets Power Sellers use to make \$100 everyday selling on eBay What I ' m going to give you is a proven plan that you can follow over and over again to make money now – and in the future, whenever you find yourself strapped for a little cash. What ' s the secret to selling your item for the most money possible? It ' s easy - Most sellers have no idea what they have, or how to sell it ... This book will cover all of the steps you need to know to successfully sell on eBay Where to find items to sell on eBay How to discover your own private niche where buyers will keep coming back to buy more items from you How to write a great auction title packed with keywords that will draw people to your items How to write a description that will leave them drooling for more Whether you are new to eBay, or have been selling on eBay for some time now, this book can help you make more money - starting today! If you have a service to sell, Fiverr will let you pump up profits – Quickly If you ' ve never heard of Fiverr before, it ' s this crazy hot new website where buyers and sellers get together to exchange money for services. And, get this - the price on everything offered there is five dollars, no more, no less – Maybe! It ' s just insane what some of these people are willing to do for five bucks! There ' s this one guy who dresses up like Jesus and offers to make a Christmas video or a video of anything else you want. Another guy posts a set of Mickey Mouse ears on his balding head and offers to sing Happy Birthdays in a depressed tone. And, before I forget, there ' s a lady who offers to write any message, website, URL, or anything else you want across her boobs or sexy bum and send you pictures. And the fact is they are selling hundreds, sometimes even thousands of these services. I know what you ' re thinking! How can anybody make money, even if you do thousands of these things, if you only charge five bucks? The answer is gig extras, and good old fashioned tips. Many sellers hang a new-fangled cyber tip jar out there to collect a little extra love for a job well done. But the real money is in the gig extras. Just what are gig extras, you ask. Gig extras are this hot new idea Fiverr has developed that is allowing many sellers to consistently turn five bucks into fifty or one hundred dollars. There is no limit to the type of gig that you can offer. If you can imagine it, you can do it. eBooks are HOT! If you ever wanted to write a book – Now is the time! On October 23, 2001, Apple Computer, a company known for its chic, cutting-edge technology -- if not necessarily for its dominant market share -- launched a product with an enticing promise: You can carry an entire music collection in your pocket. It was called the iPod. What happened next exceeded the company's wildest dreams. Over 50 million people have inserted the device's distinctive white buds into their ears, and the iPod has become a global obsession. The Perfect Thing is the definitive account, from design and marketing to startling impact, of Apple's iPod, the signature device of our young century. Besides being one of the most successful consumer products in decades, the iPod has changed our behavior and even our society. It has transformed Apple from a computer company into a consumer electronics giant. It has remolded the music business, altering not only the means of distribution but even the ways in which people enjoy and think about music. Its ubiquity and its universally acknowledged coolness have made it a symbol for the digital age itself, with commentators remarking on "the iPod generation." Now the iPod is beginning to transform the broadcast industry, too, as podcasting becomes a way to access radio and television programming. Meanwhile millions of iPods obsess about their gizmo, reveling in the personal soundtrack it offers them, basking in the social cachet it lends them, even wondering whether the device itself has its own musical preferences. Steven Levy, the chief technology correspondent for Newsweek magazine and a longtime Apple watcher, is the ideal writer to tell the iPod's tale. He has had access to all the key players in the iPod story, including Steve Jobs, Apple's charismatic cofounder and CEO, whom Levy has known for over twenty years. Detailing for the first time the complete story of the creation of the iPod, Levy explains why Apple succeeded brilliantly with its version of the MP3 player when other companies didn't get it right, and how Jobs was able to convince the bosses at the big record labels to license their music for Apple's groundbreaking iTunes Store. (We even learn why the iPod is white.) Besides his inside view of Apple, Levy draws on his experiences covering Napster and attending Supreme Court arguments on copyright (as well as his own travels on the iPod's click wheel) to address all of the fascinating issues -- technical, legal, social, and musical -- that the iPod raises. Borrowing one of the definitive qualities of the iPod itself, The Perfect Thing shuffles the book format. Each chapter of this book was written to stand on its own, a deeply researched, wittily observed take on a different aspect of the iPod. The sequence of the chapters in the book has been shuffled in different copies, with only the opening and concluding sections excepted. "Shuffle" is a hallmark of the digital age -- and The Perfect Thing, via sharp, insightful reporting, is the perfect guide to the deceptively diminutive gadget embodying our era.
