Devoted to the history of this jazz movement, the study combines a narrative of the evolution of hard bop - from its beginnings as an amalgam of bebop and rhythm and blues to its experimental breakthroughs in the 1960s - with close analyses of the musicians' styles and recordings.

Ranging from ragtime to bebop and from Bennie Moten to Charlie Parker, this work aims to capture the golden age of Kansas City jazz. It showcases the lives of the great musicians who made Kansas City swing, with profiles of jazz figures such as Mary Lou Williams, Big Joe Turner, and others.

Bud Powell was not only one of the greatest bebop pianists of all time, he stands as one of the twentieth century's most dynamic and fiercely adventurous musical minds. His expansive musicianship, riveting performances, and inventive compositions expanded the bebop idiom and pushed jazz musicians of all stripes to higher standards of performance. Yet Powell remains one of American music's most misunderstood figures, and the story of his exceptional talent is often overshadowed by his history of alcohol abuse, mental instability, and brutalization at the hands of white authorities. In this first extended study of the social significance of Powell's place in the American musical landscape, Guthrie P. Ramsey, Jr. shows how the pianist expanded his own artistic horizons and moved his chosen idiom into new realms. Illuminating and multi-layered, The Amazing Bud Powell centralizes Powell's contributions as it details the collision of two vibrant political economies: the discourses of art and the practice of blackness.

!-[if gte mso 9] ![endif]- The gripping story of the rise of early drug culture in America, from the author of the acclaimed Can't Find My Way Home With an intricate storyline that unites engaging characters and themes and reads like a novel, Bop Apocalypse details the rise of early drug culture in America by weaving together the disparate elements that formed this new and revolutionary segment of the American social fabric. Drawing upon his rich decades of writing experience, master storyteller Martin Torgoff connects the birth of jazz in New Orleans, the first drug laws, Louis Armstrong, Mezz Mezzrow, Harry Anslinger and the Federal Bureau of Narcotics, swing, Lester Young, Billie Holiday, the Savoy Ballroom, Reefe Madness, Charlie Parker, the birth of bebop, the rise of the Beat Generation, and the coming of heroin to Harlem. Aficionados of jazz, the Beats, counterculture, and drug history will all find much to enjoy here, with a cast of characters that includes vivid and memorable depictions of Billie Holiday, Miles Davis, John Coltrane, Jackie McLean, Allen Ginsberg, William S. Burroughs, Jack Kerouac, Herbert Huncke, Terry Southern, and countless others. Bop Apocalypse is also a living history that teaches us much about the conflicts and questions surrounding drugs today, casting many contemporary issues in a new light by connecting them back to the events of this transformative era. At a time when marijuana legalization is rapidly becoming a reality, it takes us back to the advent of marijuana prohibition, when the templates of modern drug law, policy, and culture were first established, along with the concomitant racial stereotypes. As a new opioid epidemic sweeps through white working- and middle-class communities, it brings us back to when heroin first arrived on the streets of Harlem in the 1940s. And as we debate and grapple with the gross racial disparities of mass incarceration, it puts into sharp and provocative focus the racism at the very roots of our drug war. Having spent a lifetime at the nexus of drugs and music, Torgoff reveals material never before disclosed and offers new insights, crafting and contextualizing Bop Apocalypse into a truly novel contribution to our understanding of jazz, race, literature, drug culture, and American social and cultural history.

Presents a history of bebop from its roots in the late 1930s; describes the musicians, bands, and composers who contributed to this style of jazz; and evaluates key bebop recordings.
