Caterpillar factory and dealer personnel as well as TEPS dealer personnel have been challenged with 3406 PEEC failures. The primary objective is to repair the engine with minimal cost to the customer. An experienced PEEC technician should consider all of the component enhancements and consider replacement/upgrade of all affected components.

The Caterpillar 3406E is a fairly bulletproof diesel engine in terms of problems. However, as with all engines, there are usually a few issues that are well known. You may have heard of oil leaks with the 3406E. A common spot for leaks is near the rear side of the engine around the spacer plate and the cylinder
