This book contains reproducible activities for extra reading skills practice. It presents activities that test students' strategies for reading, such as cloze exercises and sentence completion practice that focus on using world knowledge and discourse cues to make the right word choice and mystery passages that emphasize inferencing skills. Ten reading comprehension quizzes serve as stand-alone readings that are excellent practice for the Next-Generation TOEFL® and other proficiency tests. Although initially designed as a companion for Reading Processes and Structures, it can be used with any reading skills textbook or in any course where reading skills and strategies require further development.

This book constitutes the proceedings of the Third International Conference on Analysis of Images, Social Networks and Texts, AIST 2014, held in Yekaterinburg, Russia, in April 2014. The 11 full and 10 short papers were carefully reviewed and selected from 74 submissions. They are presented together with 3 short industrial papers, 4 invited papers and tutorials. The papers deal with topics such as analysis of images and videos; natural language processing and computational linguistics; social network analysis; machine learning and data mining; recommender systems and collaborative technologies; semantic web, ontologies and their applications; analysis of socio-economic data.
