Their spies have infiltrated the government and traitors plague Earth's military. Captain Maddox of Star Watch Intelligence wonders if the ancient legend could be true. Would such an old starship be able to face the technology of the New Men? On the run from killers, Maddox searches for a group of talented misfits. He seeks Keith Maker, a drunken ex-strikefighter ace, Doctor Dana Rich the clone thief stuck on a prison planet and Lieutenant Valerie Noonan, the only person to have faced the New Men in battle and survived to tell about it. The Black Fleet Saga continues... A human planet has been invaded. The enigmatic Darshik have landed troops on a frontier world and have begun subduing major cities even as their blockade repels all attempts by the fledgling United Terran Federation to

mount a counteroffensive. The Federation's military command is desperate and with their fleet still in tatters they make a last ditch effort to free the planet: They pull Captain Jackson Wolfe out of retirement and put him in command of a ship they hope can get past the defending armada and provide support to the beleaguered Marines and civilians fighting on the surface of the contested world. There is no reasoning with this enemy. If the Terran Federation wants their planet back, they will have to pay the price. Iron & Blood is the second book of The Expansion Wars Trilogy and the fifth book of the Black Fleet Saga.

Mankind's outer colonies are disappearing. Without warning. Without a trace. Fleet command chalks the attacks up to pirates, but Captain Dryker of the UFC Johnston isn't buying it. Defying command, he leads his misfit crew into hostile territory in search of answers. They encounter the mythical Void Wraith, an unstoppable legend whispered by the first race. After 26,000 years the Void Wraith have returned to begin the next Eradication. Their technology is superior, their motives unclear. Humanity cannot stop them. Not without help. Captain Dryker's only hope is to forge an alliance with mankind's greatest enemy, the savage Tigris. One maverick captain, an unlikely crew, and an aging vessel are all that stand between humanity and the Eradication. "It's like Battlestar Galactica and Mass Effect had a baby, and that baby was raised by Starcraft. I read this book in one sitting, and immediately looked for the next."- The author's totally biased friend.

Depicts a world where humanity has been conquered by oppressive alien forces and where a group of increasingly powerful young rebels is assisted by an alien ruler's daughter, who risks her life after falling in love with a human.

This 1937 successor to Last and First Men offers another entrancing speculative history of the future. Cited as a key influence by science-

fiction masters such as Doris Lessing, its bold exploration of the cosmos ventures into intelligent star clusters and mingles among alien races for a memorable vision of infinity.

Jaxon Imagine witnessing your mother's brutal murder. Imagine not being able to remember a single thing about what happened, even though you were there. It doesn't matter how hard I try. I. Can't. Remember! I was just a small boy when it happened. I must have tried to defend her because I have the scars that prove it. My wounds should have healed completely. I'm a shifter. Son of the alpha. They didn't! My scars are my constant reminder of what the Moones did. What they took away from us. My mother died in agony. A piece of my father died along with her. I'm given the opportunity to right a wrong. To finish the last remaining Moone before they become a fully-fledged wolf. It won't be easy but I've got this. The offspring of that despicable family cannot be allowed to ever reach full power. I'll die before I allow it to happen. I leave my pack and head for the city. Evie I'm just a regular girl, living a regular life. I work hard, living from day to day, trying to make ends meet. Minding my own business. You know, normal stuff. When, from out of nowhere, he crashes into me while I'm on a jog. Quite literally crashes into my clumsy ass. Then again, maybe I crashed into him. I'm not sure how it went down, only that he's a colossal jerk. I wish he wasn't quite so sexy because...back to the part about him being a jerk. I'm being polite since "jerk" is too nice a word. I'm happy to see the back of him. Partly because he has such a nice back but also because he sucks...big time! Only, the sexy jerkface keeps turning up. I can't seem to get rid of him. Do I even want to? Yes. No. Argh! It's annoying. Then I find out that I'm not such a regular girl after all. Not even close. Just like that, everything changes. And I mean everything. Authors note: Scarred Wolf is a standalone shifter romance. It features a sassy heroine who has no idea who she really is and a sexy alpha who'll help her figure things out. No, that's not true, she'll help him figure things

out. Okay, maybe a little bit of both. Beware, this book contains super-hot, growly scenes and naughty language that will make you blush!

His intention was to take over the world. However, in the aftermath of his attack, Farv unleashes an ancient creature back into the universe where it will try to release its creators from their prison. Now it's up to Farv Michael Larion and the CyBorg to stop it and its creators before they can destroy the universe.

The Prince Prince Xalikian Kazharan has a dilemma on his hands. Now that the Kordolians have landed on Earth, he somehow has to convince an entire planet of Humans that his people mean them no harm. It's easier said than done, especially when one's race has a reputation for brutally conquering the Nine Galaxies. Perhaps this stubborn journalist called Sera Aquinas, who thinks she can just walk up to his front door and ask for an interview, might be able to help him. But first, he has to gain her trust, and that's not so easy when her presence drives him to distraction. The Journalist Sera Aquinas doesn't trust the charming amber-eyed Prince when he says he doesn't want to take over her planet. As a hardened journalist, she's seen her share of duplicity and corruption. But she has to admit that Xal is one fine looking alien, and a part of her is curious. It's absolutely far fetched, but what if he's telling the truth? And when it comes to Xal, why does her body keep betraying her when her head is telling her to get the hell out of there? Warning: this book contains swearing, violence, sensual sex scenes, silver aliens with fangs and a little dose of insta-lust. If you're sensitive to any of these things, you may want to think twice before reading it. It's definitely recommended for readers aged 18 and over. Dark Planet Falling is Book Two in the Dark Planet Warriors Series. It will probably make more sense if you've read Dark Planet Warriors first, although that's probably not absolutely essential.

When a Daklan annihilator drops out of lightspeed, make sure you're in a different solar system. Humanity is trapped in a decades-long conflict with a warlike alien species known as Daklan. The military's high command has played it safe for too long and now defeat seems inevitable. Dealing with the consequences on the frontline, warship captain Carl Recker is a man with enemies on both sides. A routine mission takes him to a distant world upon which he finds technology from a war fought by an unknown species. The Daklan are interested in it too, and they have an annihilator class battleship at their disposal, while Recker is flying the smallest lightspeed capable warship in the human fleet. What follows will test Recker to his limits. Relentlessly pursued by the unstoppable battleship and seemingly forsaken by his superiors, he must hunt down answers from the past while fighting enemies from the present. Powerful relics of an ancient, terrible war are scattered on the fringes - finding them and unlocking their secrets may be the only hope for humanity. War from a Distant Sun is a traditional-style science-fiction action adventure. Expect space combat, ruthless aliens, mysterious tech and lots more.

Lodan Vorkan has been called many things in his lifetime-perfectionist, control-freak, monster. As one of the Kordolian Military's infamous First Division, he's one of the most feared warriors in the Nine Galaxies. As a pilot, his skill is unmatched. He doesn't like the unpredictable, and humans are exactly that. One by one, he's seen his brothers fall to these confounding creatures. Even the most battle-hardened and ruthless of them have succumbed to the Mating Fever. Humans are trouble. Humans bring chaos. Always. When he encounters the strange human called Tasha, all his warning alarms go off. She isn't anything like the other humans. She's faster; stronger-artificially so. She has secrets; she tells lies. A trail of blood-scent lingers around her. She is not the kind of human he would imagine as his mate. But Lodan's control is about to be sorely tested-in more ways than one.
