Your students are changing. Technology is changing. The idea of the classroom is changing. Now, the way your students learn French is changing as well! In preparation for this edition of Deux mondes, we conducted extensive research, employing a wide array of research tools including surveys, focus groups, and ethnographic studies to identify the key goals and challenges of the Introductory French course. Not surprisingly, communication and cultural competence are top goals of the majority of instructors, while they are simultaneously faced with the challenges of fewer contact hours, budget cuts, and new course formats. Deux mondes, 7th edition, continues to offer a truly communicative approach that supports functional proficiency while responding to these changing needs in new and exciting ways. As a direct result of our research, we created Connect French ([www.mhconnectfrench.com](http://www.mhconnectfrench.com)), a powerful online learning platform that includes the ebook, the online Cahier d'exercices, an audio/video chat tool, and a brand-new video filmed in Provence. Enhanced by these powerful new digital tools, Deux mondes, 7th edition: Engages students in authentic culture that inspires them to communicate with confidence by providing them with the natural contexts they need to develop their language skills Provides tools for flexibility and easy online course administration Achieves consistent results across face-to-face, hybrid, and online course formats \*Connect French, including but not limited to the workbook/lab manual, the video program, and chat tools, is sold separately and does not come automatically with the purchase of the textbook.

Deux mondes, 8th edition, offers a natural approach to language learning that fosters communicative and cultural competence in the introductory French class, while responding to the changing needs of students and instructors providing digital resources to support them. The Deux mondes program is built around the following principles: Emphasizing cultural competency and authentic contexts Fostering community through group work Focusing on communication rather than form Creating a low-anxiety environment Firmly grounded in research on second-language learning, the 8th edition of Deux mondes supports the ACTFL National Standards, as outlined in the five "C" goal areas - Communication, Cultures, Connections, Comparisons, and Communities - of the World- Readiness Standards for Learning Languages, and provides a strong foundation for meeting those standards.

Deux mondes is widely regarded as the most communicative text available for beginning French courses. Based on the Natural Approach, developed by Tracy Terrell and Stephen Krashen, Deux mondes, Fourth Edition offers beginning language students a way to develop language proficiency, especially in listening and speaking, that allows students to participate in real conversations at a very early stage. The Natural Approach in general, and Deux mondes, Fourth Edition in particular, present material inductively (so that the activities drive the grammar) and in the context of culturally rich themes and topics. This text clearly sets itself apart from the competition: with Deux mondes, students quickly become excited with their rapid growth in comprehension and vocabulary acquisition, and enjoy speaking in the non-threatening environment made possible by the activity formats.

Widely regarded as the most communicative text available for beginning French courses.

Second Language Learning and Language Teaching provides an introduction to the application of second language acquisition research to language teaching. Assuming no previous background in second language acquisition or language teaching methods, this text starts by introducing readers to the basic issues of second language acquisition research. It then examines how people learn particular aspects of the second language, such as grammar, vocabulary, pronunciation and the writing system, and at the strategies they adopt in their learning and the differences between individuals. Final chapters look at second language learning in a broader context – the goals of language teaching and how teaching methods relate to SLA research. This newly updated fifth edition builds on the comprehensive scope of earlier editions while also addressing more recent developments in the field, particularly multilingual approaches to language teaching.

Studies In Language Learning & Spanish Linguistics, In Honor of Tracy D. Terrell is a Festschrift, a collection of scholarly articles that was published in memory of Tracy D. Terrell, late of the University of California, San Diego. Tracy Terrell was an innovative practitioner and researcher in the areas of Second Language Acquisition and Foreign Language Teaching Methods. He is best known as creator

of The Natural Approach and as co-author of Dos mundos, Deux mondes and Kontakte, the very successful beginning texts for Spanish, French and German which are based on that approach. Language professors and researchers from around the country have contributed to this publication, which will be of primary interest to libraries and to scholars in language teaching methodology.
