The term "lean thinking" was coined by James P. Womack and Daniel T. Jones to capture the essence of their in-depth study of Toyota's fabled Toyota Production System. Lean thinking is a way of thinking about an activity and seeing the waste inadvertently generated by the way the process is organized. It uses the concepts of:

Lean Thinking: Banish Waste and Create Wealth in Your ...

Instead of constantly reinventing business models, lean thinkers go back to basics by asking what the customer really perceives as value. The next step is to line up value-creating activities for a specific product along a value stream while eliminating activities (usually the majority) that don't add value.
