He was the foremost genius of an age in which genius was almost commonplace – the Italian Renaissance. Leonardo ' s fame has as much to do with his versatility as his expertise.

Leonardo Da Vinci - Artist, Inventor, Scientist, Engineer ...

Artists and craftsmen in Leonardo's time knew how to build and repair the familiar kinds of machines. The idea of inventing new kinds of machines, however, would not have occurred to them. Leonardo developed a unique new attitude about machines. He reasoned that by understanding how each separate machine part worked, he could modify them and combine them in different ways to improve existing machines or create inventions no one had ever seen before.
