The author examines how RCA shaped a sophisticated consumer electronics technology in a research and development effort that spanned fifteen years. We see how the company's history, its structure, its technical capability, and its competition all influenced the choices that were made in moving VideoDisc from laboratory to development group to market, and ultimately to withdrawal from the marketplace. Published in hardcover as RCA and the VideoDisc.

'Look Into' materials provide the reader with an overview of Scripture at a level to help personal knowledge and application for the individual, together with Bible study and sermon material for the hard-working church leader. 'Look Into' series are intended to provide an overview of Bible books and pick out main topics. In this way, the reader is left with a real flavour of the specific Biblical subject, with the hope that, in due time, he/she might be encouraged into a deeper study. These studies from the book of James meet our aims and focus the reader on the need to study, learn and apply the undoubted word of God. Why? Because we live in a time when the Word of God has never been easier to obtain, yet it is a time when that same Word is so little understood. This creates one of the greatest dangers to the Church that is from within, not from outside.
