Report on ISO/TC 211 in Redlands, California. 02 February 2017. AGI News. The 43rd meeting of the International Standards Committee for Geographic Information, ISO/TC 211, took place in Redlands, California at the headquarters of ESRI, in December. 74 delegates from 22 countries attended, along with representatives from 20 liaison organisations. The UK was represented by Peter Parslow and Roger Lott, from the AGI Standards Committee under the auspices of the British Standards Institution (BSI).

Report on ISO/TC 211 in Redlands, California

This guidance is in addition to the procedures for technical work and the methodology for the development of International Standards established by the ISO/IEC Directives. This Guide makes a distinction between three different types of management system standard (MSS), as follows. Type A: management system requirements standards, both generic and sector-specific. Type B: management system guidelines standards, both generic and sector-specific. Type C: management system related standards.
