through selected quotes from his lectures and a variety of stories told by his students. Complementary to another collection about Suzuki, *Zen Is Right Here*, this book offers a joyful bounty of anecdotes and insights, revealing a playful and deeply wise teacher who delighted in paradox and laughed often. Each of the stories and quotes presented here is an example of the versatile and timeless quality evident in Suzuki's teaching, showing that the potential for attaining enlightenment exists right now, in this very moment.

Horsepower War shatters nostalgic myths about musclecars and provides historical perspective on today's SUV craze. It proves efficiency and pollution regulation didn't kill the musclecar and that current regulation, which picks winners by favoring SUVs is the real threat. Harless has mined auto literature from the 1960s to the present to reveal granular detail on specific models, while at the same time providing broad perspective on the tectonic shifts in domestic auto making. He approaches political issues as an auto enthusiast, but instead of being an apologist for industry, he offers principles that embrace market rationality, and enhance the long-term sustainability of cars through rational transportation and energy policy. Harless re-discovers the principles of "conspicuous waste" and "conspicuous consumption"--phrases coined by economist Thorstein Veblen, author of *Theory of the Leisure Class*--to unmask the unacknowledged assumptions of both U.S. consumers and automakers.

A "powerful and original" (*The Times*) historical saga that follows the quest for identity, redemption and home in the wake of World War II. One night in autumn 1944, a gunshot echoes through the alleyways of a small town in occupied Poland. An SS officer is shot dead by a young Polish Jew, Margarita Ejzenstain. In retaliation, his commander orders the execution of thirty-seven Poles--one for every year of the dead man's life. First hidden by a sympathetic German couple, Margarita must then flee the brutal advance of the Soviet army with her newborn baby. So begins a thrilling panorama of intermingled destinies and events that reverberate from that single act of defiance. *Kingdom of Twilight* follows the lives of Jewish refugees and a German family resettled from Bukovina, as well as a former SS officer, chronicling the geographical and psychological dislocation generated by war. A quest for identity and truth takes them from refugee camps to Lübeck, Berlin, Tel Aviv, and New York, as they try to make sense of a changed world, and of their place in it. Hypnotically lyrical and intensely moving, Steven Uhly's epic novel is a finely nuanced yet shattering exploration of universal themes: love, hatred, doubt, survival, guilt, humanity, and redemption.

Henry St George Caulfeild (1851-1943) wrote this autobiography towards the end of his life and called it percipiently, "A Speck in the Cosmos". Reading "A Speck in the Cosmos" reveals a fascinating insight into Henry Caulfeild's life in colonial Ceylon (as Sri Lanka was known), when coffee was grown and where he worked as a plantation manager. When coffee failed there, Henry then moved to Queensland during Australia's era of imported labour from the South Sea Islands for the rapidly developing sugar plantations around Bundaberg, a topic which subsequently became controversial. Written in the somewhat constrained language of the time, this autobiography nevertheless remains a primary historical resource of a lifestyle of that era and puts a first-hand and very personal touch to British and Australian enterprises of the time. Although the autobiography was never formally published at the time, a portion of "A Speck in the Cosmos" was serialised in a pre-World War II Australian magazine called "The Steering Wheel and Society & Home". Sisters Colleen Watts and Louise Brodie, Henry's great grandchildren, have carefully compiled this book, using the previously published pages and a selection of family and

historical photographs. Also included is a section of the family tree to give context to the autobiography and the family members mentioned. Caulfeild's Boer War Compendium (an extraordinary amount of material relating to the Boer War and referred to in this autobiography) is housed by the State Library of Queensland, Australia in the John Oxley Library in Brisbane.

One of the most important works on Zen Buddhism. the author explains this unique approach to enlightenment to Western readers. It is a direct, profound, and immensely practical way of life, which has helped mold the philosophy and culture of China and Japan for over 1200 years.
